

Who is TerraCycle?

TerraCycle is an international leader in sustainability solutions and innovative recycling, creating and operating first-of-their-kind recycling solutions. We're **Eliminating the Idea of Waste**[®] with the help of businesses, governments, and individuals like you.

Our free recycling programmes

TerraCycle's free recycling programmes allow anyone to help the planet by collecting and recycling hard-to-recycle items like toys, beauty products, and snack packaging. **Brands, retailers and other stakeholders sponsor** these programmes, so there's **no cost to you**.

How it works

Create or sign into your account on [terracycle.com/en-GB](https://www.terracycle.com/en-GB).

Sign up for free recycling programmes.

Collect accepted items.

Package them in a box and attach the **free shipping label** we provide.

Ship your rubbish to us to be recycled!

We'll take care of the rest! The raw materials made from the rubbish you've **recycled** with us will be used to **make new items**, including outdoor furniture, shipping pallets, storage containers, and more!

TerraCycle Recycling Rewards

You **receive free points** for each valid shipment you send in through our free recycling programmes. These points can be redeemed as a **donation** to any school, non-profit organisation, or charity.
